

Appalachian State University Overview of the Global Engagement Strategic Plan

- Utilize various technologies to connect Appalachian classes with classes at global partner institutions.
- Continue to develop and foster global learning throughout the curriculum, across colleges/schools, departments, and academic programs.
- Develop global study away programs in the US.
- Enhance short and long-term education abroad programs

Increase global content of curricular and co-curricular activities on campus and in the community

- Increase the number of international undergraduate and graduate degree-seeking students on campus.
- Develop deliberate and purposeful connections with Appalachian alumni with global focus and backgrounds.

Augment our campus's international connections and diversity

- Utilize current institutional global partners to expand Appalachian's global research network.
- Raise awareness to increase the number of faculty, staff and students who participate in global research and creative endeavors.
- Leverage international institutional partnerships to benefit and improve education abroad opportunities at Appalachian.

Enhance scholarship and creative endeavors collaboration with global partners

- Enhance assessment of education abroad experiences.
- Collaboration between OIED, Colleges/Schools and IRAP.
- Assess international institutional partnerships to determine the need for expansion or diversification of institutional relationships for different purposes.

Strengthen evaluation of global engagement efforts at Appalachian State
